It is not something I would have considered doing four years ago.
But having watched what has happened in Humboldt County, I felt I had to do something.
*We have a growing homeless problem, a fentanyl crisis, a housing shortage.
*Roads falling apart, a 17-million-dollar budget deficit, fire and police departments that don't have enough funding.
*Our cannabis farmers live in a legal limbo of confusing laws, rules and taxes.
Why? Part of the reason is our Board of Supervisors has trouble making decisions. Part of it is that some have a 'my way or the highway' approach to governing. Part of it is that is its sometimes easier to kick the can down the road than make a hard decision.
My approach to leadership is this. Integrity. Finding common ground. Bridging differences to fix a problem.
During my 17years on two different school boards, I led with positive energy, civility and integrity. (I kept my word and always told the truth). We never had rancor or temper tantrums.
I've served as a Fortuna Planning Commissioner, a Board Member of the Chamber of Commerce, on the Headwaters Fund Board and on the Business Improvement District.
We got things done at a time when we desperately needed business to grow and create new jobs.
It's the kind of elected official I've been. The kind of County Supervisor I'll be.
And yes, I'd love to have your vote for Humboldt County Supervisor in District 2.

Sincerely,

Jeana McClendon, Candidate

Supervisor, District 2, Humboldt County
