

12/24/2022 5:00pm Rio Dell Update

Rio Dell Public Information Update:

RIO DELL BUILDING INSPECTIONS: Building inspectors with CalTrans are walking the city today and tomorrow to inspect and re-inspect buildings. These inspectors come from Los Angeles, San Bernardino and Sacramento to do this important and necessary work over the holiday. If you have not been inspected and you suspect structural damage, please call 707-764-3532. City Hall phone connectivity is spotty, so leave a thorough message with your name, address and phone number.

WATER: Water services are restored to approximately 95 percent of customers. This water is still not potable and should be boiled before human consumption, including tooth brushing. Estimated time to officially end the Boil Water Notice is Wednesday, December 28, 2022. Residents of East Center by and including the Rio Dell Terrace Apartments are projected to remain without water service until Monday, December 26, 2022 due to a major and difficult fracture deep below ground-level. Remaining homes without water will have damage on the property owners side of the water system. Homes may have air locks or debris in pipes. Clean your faucet filters and occasionally run water over the next few days. Open faucets at the highest elevation in the home to remove air locks. Water Production is not an issue.

SERVICES: Showers will return to the Fire Hall on Monday by noon. Garbage bins will be located in front of City Hall. Please restrict their use for essential garbage removal only from now until Monday. No regular household trash, electronics or hazardous wastes.

WELFARE CHECKS: If requesting welfare checks for individuals who reside in the city limits of Rio Dell, contact law enforcement agency in which they reside or contact the Rio Dell Police Department directly at [\(707\) 764-5642](tel:7077645642).

EARTHQUAKE DEBRIS DISPOSAL: Rio Dell citizens may utilize the two dumpsters located outside of Rio Dell City Hall, 675 Wildwood Avenue, to dispose of earthquake debris. Please do not overfill the dumpsters or place debris outside of dumpsters. Please do not dispose hazardous waste in these receptacles. Hazardous items not fit for disposal in these receptacles include leftover household products that can catch fire, react, or explode under certain circumstances, or that are corrosive or toxic as household hazardous waste. Products, such as paints, cleaners, oils, batteries, and pesticides can contain hazardous ingredients and require special care when you dispose of them. More information regarding hazardous waste disposal can be found at: <https://www.epa.gov/hw/household-hazardous-waste-hhw>

BUILDING INSPECTION TAGS ON RESIDENCES: If your residence has been tagged by building inspectors, follow the directions as listed on the tag. If you have any further questions regarding the tag placed on your residence, visit Rio Dell City Hall at 675 Wildwood Avenue or call directly at 707-764-3532. If you received a red or yellow tag on your residence and you are wanting to safely retrieve items, call the Rio Dell Fire Department directly at 707-506-5083.

Please refer to the attached document that explains red, yellow and green tags.

Rio Dell Earthquake – Resident Handout

What's this placard by my door mean?

The placards are a notice that your life is at threat from a probable aftershock earthquake. Even if you have only received a green placard, you should take action to protect yourself by relocating to a shelter or other safe structure.

Lawful occupancy is permitted. The structure has been inspected and no apparent structural hazard has been found.

Limited access only. In special cases inspectors have specified the use limitation on your placard. Follow the direction on the placard.

You should not occupy or enter your home until the threat of aftershocks has passed and the damage has been repaired.

What if I am unable to find alternative housing?

You may occupy your residence at your own risk. The Humboldt County Office of Emergency Services is operating a non-emergency line for welfare checks and other information: 707-268-2500. Check to see what housing services are being offered.

How can I protect myself from future earthquakes?

The owner will need to hire a licensed contractor and/or a design professional to shore up damage done and protect against future earthquakes. The Earthquake Brace and Bolt website (www.earthquakebracebolt.com/Homeowner-Resources) is a good resource for this. Find premade plans for seismic retrofitting at (www.earthquakebracebolt.com/Homeowner-Resources/Do-It-Yourself).

Who can I call to get in contact with licensed contractors and design professionals in Humboldt County?

The Humboldt Builders Exchange 2022 Referral Guide (www.humbx.com/2022-referral-guide) contains a list of licensed contractors and design professionals in the area.
