## *BUDGET*

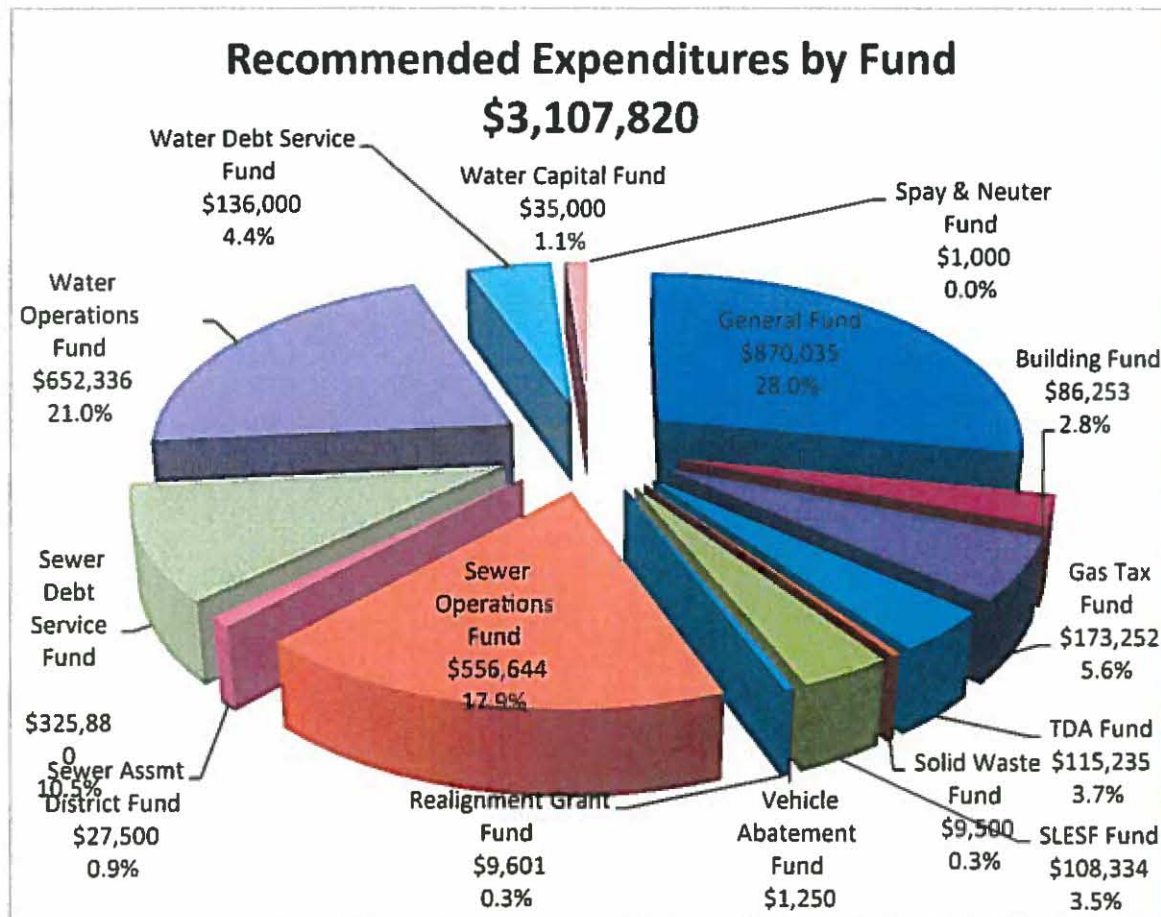

# CITY OF RIO DELL RECOMMENDED BUDGET FOR 2014-15

## INTRODUCTION

The 2014-15 Recommended budget for all funds totals \$3,107,820. Of this amount, the General Fund totals \$870,035 or 28% and the Water and Sewer utility funds represent 56% of the budget, or \$1,733,360 for their operations, debt service and capital funds. Streets total \$258,997 or 8% of the budget.

In 2014-15, the General Fund will utilize almost \$131,000 (11.5%) of its Reserves to fund ongoing programs. A revenue ballot measure is recommended to be offered to the community for approval on November 4, 2014 in order to maintain basic services.

## Estimated Reserve Balance by Fund at Year End

# RESERVE BALANCES-ALL FUNDS

## NARRATIVE

A fund is created for each special revenue and expenditure category in the City's financial system. Except for the General Fund which can be used to fund any activity, all other funds are for special purposes and have their own integrity. As such, they cannot be co-mingled or absorbed into the General Funds at the end of a fiscal year. Any balance in a fund between expenditures and revenues will roll forward at the end of the fiscal year and will be available in the next fiscal year for allocation in that fund.

The purpose of this form is to project the beginning reserve balance for each fund and then, based on the budget recommendations, prepare an estimate of the ending reserve balance at the end of the fiscal year.

## GENERAL FUND (00)

For example, the General Fund has an estimated reserve balance available on July 1, 2014 of \$1,138,228. Revenues for the year are recommended at \$772,838 and expenditures total \$870,036. Thus, the projected General Reserve Fund Balance at the end of the fiscal year is expected to drop \$130,875 to \$1,007,353. The newly created Building Fund was not expected to be in a deficit position, but since it is at this time, the General Fund is required to cover it (\$33,202).

## BUILDING PROGRAM FUND (08)

This is a new Fund for 2014-15 related to building plan check and inspection services for which user fees are intended to fully fund the cost of operations. Until such time as there are revenues in excess of expenditures, there will be no reserve for the fund. Revenues fall short of expenditures by \$33,678. The deficit becomes a General Fund requirement in order to balance revenues to expenditures.

#### PARKS AND RECREATION FUND (15)

Residential developments pay an assessment of \$1,500/lot into this fund to be used for park land acquisition and development. There is currently \$311 in the fund and no anticipated expenditures. No revenues are anticipated to be received in 2014-15.

#### STREET FUNDS (20 & 24)

A portion of the Highway Users Tax (Gas Tax) (20) is apportioned to cities based on population, miles of maintained streets and registered vehicles. This restricted fund can only be used for the construction, maintenance and repair of streets, including the salaries and equipment related to those activities. The estimated beginning balance in the fund is \$226,045 and revenues during the year are estimated at \$90,010. Expenditures for operations are estimated at \$173,252. The estimated \$142,803 fund balance at year end will be a tapped \$ 83,242 to balance the program for a net of \$136,176. There are insufficient revenues from gas tax to meet the community's needs for street repair and reconstruction.

The Transportation Development Act (TDA) (24) is allocated through the State for cities to meet their local public transportation needs for mass transit. Once those needs are met, the City may use the balance for street maintenance purposes. There is no fund balance available from 2013-14 and the total revenue of \$108,609 has been determined by the Council to be split between public transportation needs (\$47,276) and road maintenance (\$67,960). The anticipated balance at years end is zero. The Gas Tax Fund is contributing \$6,627 to balance the fund

#### SOLID WASTE FUND (27)

The Humboldt Waste Management Authority annually contributes back to each member agency a portion of the tipping fee paid by customers for solid waste and recycling programs at the local level. It is projected that the fund will have a balance of \$37,376 on June 30, 2014 and \$36,376 at year's end.

#### COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS (37 & 39)

The Community Development Block Grant Program was established to address housing and community development needs and to assist low income residents with housing rehabilitation projects. The program has seen little activity because of the economy.

The Community Development Block Grant (CDBG)-Residential Revolving Loan Fund (37) shows a beginning fund balance of \$18,598 and the CBDG Program Income Fund (39) has an estimated

\$224,809 to begin the year. The California Department of Housing and Community Development recently issued new guidelines to align the State program with Federal requirements. Additionally, the funds are being reconciled and new reports are being prepared. Thus, these totals and program details are under review.

#### SPECIAL LAW ENFORCEMENT SERVICE FUND (SLESF) (40)

This fund has received a \$100,000 State subvention for several years to fund the cost of (1) sworn Police Officer position for the fiscal year. It is not believed to be a permanent source of revenue for law enforcement. In any given year if there are unspent monies that balance accrues to the fund. At present there is a balance of \$8,334, and at the end of the year there will likely be a balance of zero.

#### VEHICLE ABATEMENT (43)

In the past, \$1/registered vehicle was collected through DMV to create a vehicle abatement fund. Even though the program ended, there is a balance in the Reserve which the Police Department utilizes to remove abandoned vehicles from public property. The present balance in the fund is \$2,755 and no revenue is expected to be received. It is anticipated that there may be a balance of \$1,505 in the fund by the end of the year.

#### REALIGNMENT FUND (46)

The State of California impacted local law enforcement agencies when it took an action to release inmates early and house State prisoners in local jails. The state referred to the program as prison realignment. Local agencies objected when this population caused a spike in their workload. As the result, monies have been provided by the Legislature for the exclusive use of law enforcement to mitigate the impact. Rio Dell will receive \$20,000 in 2014-15 and expenditures are budgeted in the amount of \$9,601 to utilize Finance Department staff a few hours/week to staff their front counter and to answer phones. This staffing augmentation allows the release of an officer to the field. The Chief of Police intends to use the balance of the funds for a drug rehabilitation program (\$10,399) that is still under development.

#### SEWER FUNDS (50, 52, 53 & 54)

The Sewer Fund has (4) separate reserves for operations, debt service, capital and the assessment district. The beginning reserve balance for Operations (50) is estimated at \$339,617

and is projected to utilize \$188,061 of the reserve during the year. The internal rate structure needs to be adjusted between operations and capital.

The Sewer Capital (52) begins the year with a balance of \$193,904 and is expected to grow to \$568,180 by June 30, 2015 due to an internal transfer from the Sewer Debt Reserve, which is carrying a balance that is higher than required.

The Sewer Assessment District Fund (53) begins the fiscal year with a Reserve of \$7,654 and will receive an estimated \$28,785 in revenue to make a debt payment in the amount of \$27,500. The year-end Reserve should grow slightly to \$8,939. Any amount in the reserve in the final year of the loan payment (2018-19) will be applied to the outstanding balance to pay down the debt early.

The Sewer Debt Service (54) fund has a positive balance of \$570,649 because the city began collecting the debt service early. Thus, it is possible to internally allocate a portion of the balance (\$244,669) not required for debt service to the Sewer Operations and Capital Funds. The required minimum balance in Debt Service is about \$326,000 for the first payment due on October 31, 2014.

#### WATER FUNDS (60, 61 & 62)

The Water Operations Reserve (60) has a beginning balance of \$114,479 and \$541,900 is the estimated revenue. It is projected that the balance in the reserve will drop to \$97,850 due to an internal transfer of \$93,807 from the Water capital Fund. A rate adjustment is required to maintain a solvent Fund.

The Water Debt Fund (61) has a beginning balance of \$230,260 with revenue for the year estimated at \$140,724. The annual debt payments of \$68,000 occur on July 1 and January 1 each year. Thus, the fund can be reduced from \$234,984 to \$68,000, transferring \$93,807 to Water Operations to establish a 15% reserve fund, and \$73,176 to the Water Capital Fund.

The Water Capital Reserve (62) begins the year with \$78,500 available and is also inadequately funded to meet the future infrastructure replacement needs of the system. At this time, \$4.50 of each subscriber's monthly payment is deposited into the Capital Fund, growing the Fund by approximately \$77,000/year. However, a minimum of \$430,000 is required to capitalize the system to replace failing infrastructure. Due to the funding balance in the Water Debt Fund, it is possible to internally transfer \$73,176 to Fund 62 for a year-end balance of \$193,676. A rate adjustment is required to maintain a solvent Fund.

### RECYCLING FUND (74)

This fund is the result of an annual \$5,000 CalRecycle grant awarded to the City to fund recycling and litter reduction programs. However, the State terminated the program in 2013-14. With the estimated balance of \$15,033 in the Fund, additional litter reduction programs are possible, such as educational instruction in the area schools, until the balance is depleted.

### SPAY AND NEUTER FUND (93)

In the past, a portion of the dog license fee was deposited into this fund to support a low cost spay and neuter program. The balance in the fund is presently \$2,868 and over-time will be depleted by animal shelter charges for spay and neuter services.

### POLICY ITEMS

1. Should the General Fund contribution of \$33,676 to the Building Fund in 2014-15 be considered to be an inter-fund loan?
2. Internal transfers in the Water Fund
3. Internal transfers in the Sewer Fund

# Estimated Revenue by Fund - \$2,890,974

# Revenue Department

---

## **STATEMENT OF FUNCTION**

The Revenue Department exists solely for tracking and reporting purposes. All revenue is recorded within the revenue department for review and analysis by the Finance Department and City Manager.

## **2013-14 BUDGET**

The recommended Revenue Budget totals \$2,890,974. This includes \$2,040,515 in Operating revenue, \$355,050 for Capital, and \$495,409 for Debt Service. In comparison to the prior year, budgeted Operating income has decreased by \$349,678. This is due in part to how the City is reporting revenue for the 2014-15 fiscal year. The Water Operations Fund, for example, reflects the reallocation of \$77,000 to the Water Capital Fund. The Sewer Operations Fund accounts for the most significant change to this year's Operating revenue. The reduction is roughly \$320,625. The reason is that this year's revenue amount is based on projections in the Sewer Rate Study.

Other projected decreases in Operating income are due to the State Gas Tax Fund decrease of roughly 15% and the elimination of the ISTEPA Fund. The reduction to Operating revenue from these two funds are projected to be \$34,354.

Capital Expenditures have decreased by \$4,951,742 (the original 2013-14 budget included revenue for the WWTP Project). Capital Expenditures are \$80,000 for the 2014-15 fiscal year.

The Water and Sewer rates have been increased by 3% per resolution.

Retail Sales Tax, a major General Fund revenue, is projected to increase by \$7,500 due to a significant boost in retail business in 2014-15 within City limits. Vehicle License Fees (VLF) are estimated to show an increase of \$10,094 while In Lieu County Retail Sales Tax is expected to decline by \$7,682. The In Lieu County Retail Sales Tax estimate is based on revenue received by the City which has been showing a decline since the 2013-14 fiscal year.

A local sales tax is being considered as a source for new revenue. If passed, this additional sales tax revenue will be made available in quarterly payments beginning in April 2015.

Other than the changes mentioned, there are no unanticipated revenues and no policy items to determine.

## General Fund Expenditures by Department \$903,713

# General Fund Overview

---

The Budget Summary Worksheet for 2014-15 indicates that \$130,876 (\$97,198 + \$33,678) will be drawn from the Reserve in order to balance the General Fund budget. And, although the projected Reserve at June 30, 2015 is \$1,007,352, it is clear that revenues coming into the Fund (\$772,838) cannot keep pace with expenditures of \$870,036, \$903,714 including the subsidy to the Building Fund.

The budget does not include a cost of living adjustment for City employees and the Police Department is still down (3) Police Officer positions and a Records Clerk since the staff reductions of 2010-11.

City Hall needs ADA improvements and a more adequate City Council Chambers. A plan for remodeling the Police Department and other portions of city hall would provide for more functional work space, none of which is provided for in the 2014-15 recommended budget.

The Streets Fund is not receiving adequate gas tax revenue to address the failing condition of city streets and, as you know, 2 bond measures failed in 2012-13 in order to address our most pressing needs. The only other source of such funding, besides grants which are hard to find, is the General Fund and obviously the Fund has its own limitations.

And last, the Public Works Department has insufficient staff (4) to meet the requirements of maintaining parks, building and grounds, streets, drainage courses and the fragile sewer and water infrastructure. Add to that the new responsibility for the Wildwood Avenue enhancement and recreational facilities on Davis Street and it is no wonder that they cannot keep-up.

The 2014-15 Recommended Budget is tight as the Council directed and maintains public service levels and staffing. However, that cannot continue unless a source of new revenue is available. The City Manager is exploring

the feasibility of a revenue ballot measure for November 4, 2014, as are 4 other Cities and the County of Humboldt, all of whom are experiencing a loss of revenue.

The most feasible revenue options are either a Utility Users Tax (UUT) or a local Sales Tax. A 4% UUT would generate up to \$214,900 and a 1% local sales tax would generate \$173,000, based on current retail sales data within the City limit. This revenue option may be the most agreeable with City residents because the sales tax would also be paid in part by out-of-city residents.

Although neither approach will be adequate to meet all of the modest needs mentioned above, revenue from a 1% local sales tax would be a step in the right direction. A tax measure that supports governmental services generally would require a simple majority vote for passage and would remain in place for 5 years, at which time the local tax is either renewed by the vote of the people again, or it expires.

# City Manager Department

---

## STATEMENT OF FUNCTION

The City Manager is the Chief Administrative Officer for the City and is responsible for the day to day performance of all City operations. The City Manager oversees the activities of the Departments and special projects to ensure they are in concert with the policies and goals of the Council. The City Manager provides the City Council with accurate and timely information to support decision-making and policy direction, deals with conflict and dispute resolution, analyzes and recommends organizational enhancements and restructuring as necessary, serves as the City Budget Officer, negotiates contracts and agreements, serves as the Human Resources Director and the Public Works Director. One-third (1/3) of the City Clerk's position is budgeted in this department.

The City Clerk provides staff and administrative support to City Council and the City Manager, including preparation of City Council meeting agendas with the City Manager. The City Clerk's duties are to maintain official City records, conduct City elections and prepare and post the noticing requirements for public meetings. The City Clerk also is responsible for the filing of campaign and economic interest statements and provides information about conduct of City business to the public. The balance of the City Clerk's time is allocated equally to the Building Inspection Department (1/3) and the Planning and Community Development Department (1/3).

## 2014-15 BUDGET

The recommended budget for the City Manager's department is \$309,624, an increase of \$66,119 from the July 1, 2013 final budget, but only \$15,979 more than the adjusted budget that included extraordinary City Manager recruitment and legal costs. The City Manager position budgeted last year at ¾ time is back to fulltime for 2014-15; the experiment demonstrated that the demands on a Rio Dell City Administrator are fulltime.

The budget spread amongst the various funds as recommended is \$89,322 (29%) to the General Fund, \$13,691 (4.0%) to Streets, \$42,677 (14%) to Sewer Operations, including 40 hours of City Manager's time, and \$163,925 (53%) to the Water Fund.

## SALARIES AND BENEFITS

Salaries and employee benefits for the new City Manager, a 1 month overlap with the retiring CM and City Clerk total \$252,749, \$81,238 more than 2013-14, which included the

City Manager as a ¼ time position. The recommended budget also includes the payoff of accrued benefits for the retiring Manager.

The salaries and benefits for the new City Manager, assuming a July 1, 2014 starting date is \$133,356, which may be high due to the assumption that he/she has a spouse and 2 dependents on the insurance plans and will cash out 80 hours of Executive leave. The total cost for the outgoing City Manager is \$23,850 and the City Clerk's cost is \$34,154.

### SERVICES AND SUPPLIES

The Service and Supplies accounts are reduced to \$55,875 from \$93,635 in 2013-14, primarily due to the deletion of the City Manager recruitment costs, \$25,000 for Architectural services for the development of a city hall master plan and remodel, and \$7,500 for a total compensation study.

Other cost centers of note:

1. Legal (5112) includes \$15,000 as may be required.
2. Contract/Professional Services (5115) is recommended at \$15,000; 11,760 for professional contract services as may be required and \$3,240 for the Access Humboldt public information contract.
3. Training (5122) includes \$2,000 for both the City Manager and City Clerk

All other accounts have been adjusted to reflect actual costs.

### OTHER CHARGES

Other charges in the amount of \$1,000 are recommended for contract engineering expense as may be needed.

### POLICY ITEMS

Employment agreement with new City Manager.

# Finance Department

---

## STATEMENT OF FUNCTION

The Finance Department is responsible for providing the financial management of all city funds and major activities of this department include, but are not limited to managing the city's investments, capital project financing, financial analysis and reporting, budget preparation and management, revenue management, Utility Billing and collections, Accounts Receivable (A/R), Accounts Payable (A/P), and Payroll (P/R), grants administration, information services, purchasing, and records management. In addition, the Finance Department is responsible for the day to day operations of the City Hall front office.

## 2014-15 BUDGET

The total recommended budget for the Finance Department for 2014-15 is \$\$367,113, an increase in the amount of \$14,082 from the prior year due to an increase in health insurance costs, outside Auditor services and computer maintenance services. Except for these 3 unavoidable increases, the budget would have decreased \$14,480 from the prior year.

## SALARIES AND EMPLOYEE BENEFITS

The salaries and benefits object of the Finance Department budget funds the cost 4 staff positions, including the Director, and totals \$268,841, an increase of \$1,170 from 2013-14. The Police Department's SLESF grant is funding \$9,601 of Finance Department salaries and benefits for 20% of a staff person for office support. As the result of staff turnover and benefit selection, the cost of health insurance for employee dependents has grown from \$26,568 to \$45,736, a \$19,168 increase (72%). Otherwise, there are no significant changes.

## SERVICES AND SUPPLIES

Services and supplies are recommended to increase \$12,912, primarily due to the inclusion of the full cost for outside Auditor services (\$6,800), underfunded in 2013-14, and the department's share of the cost of the new computer maintenance contract ((\$6,024). Otherwise, the balance of the object is recommended in similar amounts as the prior fiscal year.

Of note is the amount of \$4,500 for staff training for new staff, primarily related to the City's financial software system.

## POLICY ITEMS

There are no policy items presented in the recommended Finance budget.

# City Council Department

---

## STATEMENT OF FUNCTION

The City Council is the legislative branch of Rio Dell City government and is the policy making body. The Rio Dell City Council consists of five members elected at large, one of which is nominated by the Council to serve as Mayor for a two-year term.

The role of the City Council is to establish City policies through ordinances and resolutions, deemed in the best interest of the residents. The City Council oversees the City Manager who is tasked with implementing the Council's policy.

City Council Members serve staggered four (4) years terms without compensation.

## 2014-15 BUDGET

The recommended budget for the City Council is \$11,358, a decrease of \$15,337 from the 2013-14 budget. The net General Fund cost for the department is \$4,434.

## SALARIES AND BENEFITS

City Council Members serve without salaries and benefits.

## SERVICES AND SUPPLIES

Services and supplies total \$11,358, a decrease of \$15,337 from the 2013-14 budget. This reduction is due to the one-time allocation of \$6,250 for a cash match for a Chamber of Commerce grant last year and the decrease of \$8,000 for Humboldt Access services to stream live City Council meetings. Other expenditures include \$3,240 for the City's support of public access channels through Access Humboldt, \$2,000 for City Council training, \$1,500 for mileage reimbursement for members using their personnel vehicles or City vehicle on City business, and \$2,751 for League of California Cities annual dues. The balance of expenditure

Line items are related to equipment repair and liability insurance costs.

## POLICY ITEMS

There are no policy items in the recommended budget.

# Police Department

---

## STATEMENT OF FUNCTION

The Mission of the City of Rio Dell Police Department is to create and maintain a climate of safety in the community. The Department provides police services to the community and is staffed with five sworn law enforcement officers, including the Chief of Police. The Chief of Police is responsible for all department functions, provides guidance to supervisory staff, manages the Department's budget, coordinates Internal Affairs matters, and handles other administrative needs of the Department as well as provides street level enforcement when required. The Corporal assists the Chief with administrative tasks, provides patrol supervision and field training of new officers.

## 2014-15 BUDGET

The recommended Police Department budget totals \$601,310, an increase of \$26,083 in comparison to the prior year. Most of the increase can be attributed to 2 accounts; health insurance and workers compensation, and a \$9,601 grant.

The Police Department represents a net cost of \$481,125 (55%) to the General Fund in 2014-15. And, if the Fund was not using its Reserves to balance the budget, the Department would account for 62% of all General Fund expenditures.

## SALARIES AND EMPLOYEE BENEFITS

The Rio Dell Police Department continues its reduced staffing level of 5.0 personnel from 9.0 FTE four years ago. Salaries and benefits for the Chief, Corporal and 3 Officers total \$497,103. As mentioned above, the health insurance account has increased \$11,727 for employee dependents coverage, due to Officer turnover, and \$9,324 in Workers Compensation insurance cost. The accounts were underfunded in 2013-14.

Part-time Office support from the Finance Department is included in the budget in the amount of \$9,601, funded by a State Realignment Grant. Although only 20% of a person's time, they release a uniformed officer to the field. The primary responsibility of the shared Fiscal Assistant will be to receive walk-in traffic, answer phone calls and update files.

## SERVICES AND SUPPLIES

The services and supplies line items total is recommended at \$70,207, a reduction of \$3,292 from 2013-14. The accounts generally are not discretionary and support police and patrol services. The more significant costs centers are as follows:

1. (5115) Professional services-provides \$2,500 for the Police Department Manual
2. (5117) Animal Control-\$6,500 contract with City of Fortuna for animal shelter services.
3. (5120) Telephone-Pagers- essential for Officer communication (\$7,000).
4. (5122) Training-provides for \$3,000 of POST reimbursable training for Officers.
5. (5130) Rents-leases-CrimeStar & DocStar information management systems \$2,500.
6. (5141) General liability insurance-\$14,301 for Police Department coverage.
7. (5143) Property insurance- \$3,172 for Police Department property insurance.
8. (5162) Medical-\$3,000 for assault cases in the jurisdiction.
9. (5173) Computer maintenance-\$7,950 for the Department's share of the computer maintenance contract.
- 10.(5192) Code enforcement (new)-\$1,000 for costs related to code enforcement activities
- 11.(5193) Nuisance abatement-vehicles-\$1,250 for the abatement of inoperable vehicles deemed to be a public nuisance.
- 12.(5212) Gas & oil-\$13,000 for patrol vehicle operating expense, reduced \$2,000 from 2013-14 due to new more efficient vehicles
- 13.(5308) Dispatch service-\$18,500 paid to City of Fortuna for police dispatch service.

## POLICY ISSUES

There are no policy issues in the recommended budget.

# Planning Department

---

## Statement of Function

The Planning Department oversees the City's long-range and current planning activities, develops, implements, and maintains the update of the City's General Plan and Zoning Regulations; and reviews all development projects to ensure conformance with all General Plan goals, policies and standards, and oversees the City's housing programs. The Department is staffed by the Community Development Director (70%) and the City Clerk (33.33%).

The Department also provides staff support to the Rio Dell Planning Commission who are appointed by the City Council. The Commission holds hearing and makes recommendations to the City Council relating to the sound and orderly growth and development of the City. The Planning Commission is the approving authority for subdivisions, lot mergers, lot line adjustments, use permits, and variances.

## 2014-15 BUDGET

The recommended budget for the Planning Department totals \$127,356 and is offset by only \$9,500 of planning fees for a net cost to the General Fund of \$117,856. The overall budget is reduced \$19,308 from last year due to the internal transfer of staff time from Planning to the Building Department.

## SALARIES AND BENEFITS

Salaries and benefits for that portion of the Community Development Director and City Clerks related to the function total \$108,285, down \$14,348 from 2013-14 due to the increased need of support in the Building Department.

## SERVICES AND SUPPLIES

Services and supplies for 2014-15 are recommended at \$19,071, \$4,960 less than last year. The various accounts are budgeted conservatively with reductions in Legal Expense (5122), Professional Services (5115) and Training (5122) costs.

## POLICY ITEMS

Direct staff to prepare a review of Planning fees to determine whether the City is recouping its average cost of providing services.

# Building Department

---

## STATEMENT OF FUNCTION

The Building Department is responsible to insure that residents comply with State Building Codes and local laws; basically a charge to protect the public health, safety and welfare.

In previous years the building inspection and plan check components of the program were provided by an independent contractor. However, the service is presently provided by the City of Fortuna while Rio Dell's Community Development Director undergoes the necessary training to provide the service in-house.

## NEW PROGRAM

On March 4, 2014 the City Council adopted Resolution 1218-2104 to place the building program on a self-funded basis as following:

1. Established a "Building Department Administrative Fee" in the amount of 66% for all plan check and building permit fees effective July 1, 2014.
2. Directed that the revenue collected from the administrative fee be deposited in a revenue account entitled "Building Department Administrative Fee" for the purpose of fully funding the activities of the Building Department, including the additional costs of such services charged to the City by an independent contractor or another public agency.
3. Directed that in any fiscal year that the total revenue from building plan check and building permits fees is greater than the gross cost of the department, the additional revenue shall be deposited into a "Building Department Revenue Trust Fund" to be used in future years when revenues fall short of covering the total cost of the program.
4. a). Directed that, if the revenue in the "Building Department Trust Fund" accrues at the end of any fiscal year to \$20,000 or more, the Fund shall be reduced to \$10,000 by applying the amount in excess of \$10,000 to reduce the "Building Inspection Administrative Fee" for the ensuing fiscal year.  
  
b). Directed that, if the revenue in the "Building Department Trust Fund" after initially reaching \$10,000 or more then falls below \$10,000 at the end of any fiscal year, the "Building Department Administrative Fee" shall be adjusted (increased) administratively by an amount estimated to achieve a balance of at least \$10,000 by the end of the fiscal year.

## 2014-15 BUDGETS

The recommended Building Department Operating Budget for 2014-15 totals \$80,567 and totals \$86,253 when all of the direct and indirect charges are applied. This amount is offset by \$52,575 of revenue from plan check and building permit fees. Thus, there is a General Fund contribution in the amount of \$33,678 (39%) to balance the fund.

The department is staffed by the Community Development Director (30%) and the City Clerk (33.33%)

### SALARIES AND BENEFITS

Salaries and benefits for personnel providing this service total \$65,924.

### SERVICES AND SUPPLIES

Services and supplies are recommended to drop from \$29,801 to \$14,643 as the result of the professional services contract being discontinued. However, \$5,000 is found in the Contract line item (5115) for the City of Fortuna's contract services until the Rio Dell City employee is licensed to provide the service.

### POLICY ITEMS

The City Council's policy decision of March 4, 2014 was to implement a Building Department program that is self-supporting; requiring no General Fund subsidy to balance revenues to expenditures. At that time, the establishment of an administrative fee of 66% of base charges would have balanced the budget. But, providing the services in-house proves to be more expensive. Accordingly, to follow the Council's policy to make the program self-funded, administrative fees will have to be increased by another \$29,000.

It is recommended that the City Council direct the City Manager to prepare a new revenue schedule to achieve the self-supporting policy for the program,

# SOLID WASTE DEPARTMENT

AB939 mandated a 50% diversion rate for a municipality's solid waste by the year 2000. We have recently seen new targets set by the State of California with the implementation of State Assembly Bill (2009), changing the way a jurisdiction's diversion performance is calculated; from a communitywide standard to a per capita amount which is more difficult to meet

## 2014-15 BUDGET

The recommended budget for this department is \$9,500, funded by AB 939 pass through funds from Humboldt Waste Management Authority tipping fees collected at their facility in Eureka.

### SALARIES AND BENEFITS

There are no City personnel allocated to this function. However, it is estimated that 40 hours of the City Manager will be charged to the program (\$3,115).

### SERVICES AND SUPPLICES

Services and supplies funds the HWMA administrative agreement for the program at \$5,000 and \$1,102 for Eel River Disposal charges related to the City's annual spring clean-up.

### POLICY ITEMS

There are no policy items in this budget unit.

# Recycling

---

## STATEMENT OF FUNCTION

The Recycling Department was tasked with providing responsible program development, coordination, and administration designed to bring the City into compliance with State Assembly Bill 939 (Recycling). AB939 mandated a 50% diversion rate for a municipality's solid waste by the year 2000. We have recently seen new targets set by the State of California with the implementation of State Assembly Bill (2009), changing the way a jurisdiction's diversion performance is calculated; from a communitywide standard to a per capita amount which is more difficult to meet

As a budget reduction measure at the state level, the annual \$5,000 Beverage Container grant to local agencies has been discontinued beginning July 1, 2014. Accordingly, this budget unit will be phased out as the special funds spend down.

## 2014-15 BUDGET

Funds are available in the amount of \$15,033 for activities allowed under the CalRecycle Beverage Container grant. A program for 2014-15 is under development.

## POLICY ITEMS

There are no policy items in this budget unit.

# Gas Tax Fund Expenditures by Department

**\$173,252**

# TDA Fund - \$115,235

# STREETS

## STATEMENT OF FUNCTION

The Public Works Department is responsible for the maintenance of all City streets, drainage ditches, culverts and related signage. The department is staffed by the Water/Streets Superintendent and a portion of 4 Utility Workers who also maintain building and grounds and the water and wastewater plants and systems.

### 2014-15 BUDGET

The sole source of funding for the maintenance of the Cities 20 miles of streets is from Gas Tax (\$90,010) (Fund 20) and Transportation Development Act (TDA) funds (\$108,609) (Fund 24). A total of \$47,276 of TDA funds is diverted from the street budget to fund the mass transportation needs of the community. Thus, monies available for street repair total \$151,343 for 2014-15.

The requested \$258,131 budget is recommended at \$258,997 to fund the budget funds the salary and benefits for the Superintendent of Streets and a portion of (4) Utility Workers, who also staff Building and Grounds Maintenance and the Wastewater and Water system.

The projected Gas tax fund balance of \$226,045 is deceiving high due to the ISTEPA, TCRF and STIP Funds that have carried balances for several years being transferred to the Gas Tax Fund for appropriation. The 2014-15 program pulls \$83,242 from the Reserve, leaving the estimated year-end balance of \$136,176. The Streets Reserve is in a rapid decline.

Revenues to the Street program are inadequate to maintain the system. In 2012 the City attempted the passage of a special bond measure to rehabilitate and resurface 11.5 miles of City streets. The measure failed the 66.666% voter approval by 25 votes. In the long term, the General Fund may be called upon to maintain a minimum effort, although the condition of City streets will only worsen.

## SALARY AND BENEFITS

In last year's budget the cost of labor for the maintenance of City streets was assumed to be 13% of the staff costs, but mid-year an internal transfer of \$66,295 was required because 35% of Public Works staff had logged time against the streets program. For 2014-15, salary and benefits totaling \$132,948 (41%) is requested and recommended. Also, health insurance and workers compensation insurance were substantially under estimated at \$7,270. Those accounts will total \$31,332 in 2014-15.

### SERVICES AND SUPPLIES

The service and supply object for 2014-15 is recommended at \$98,172, an increase of \$29,256 from 2013-14. However, the City's contribution of TDA funds for services provided by the Humboldt Transit Authority and the Senior Resource Center totaling \$47,276 was added to the budget mid-year 2013-14.

The Streets line item (5108) was budgeted at \$15,000 last year and is recommended at \$14,025 for 2014-15. It includes \$5,000 for hot patch and \$9,025 for all other street repairs.

### OTHER CHARGES

Other charges recommended at \$4,878 are \$2,873 less than last year due to the transfer of costs to the new Building and Grounds budget unit.

Engineering (5514) is recommended at \$18,000 for the City Engineer's (GHD) monthly attendance at the HCAOG Transportation Advisory Committee (TAC) and \$5,000 for general engineering requirements.

There are no Capital projects recommended for Streets in 2014-15.

### POLICY ITEMS

There are no policy items in this budget unit.

# Water Operations Fund - \$652,336

# Water Fund

## STATEMENT OF FUNCTION

The City Public Works Department is responsible for the daily operation and maintenance of the water system, including the infiltration gallery in the Eel River, water processing plant, (3) storage tanks and almost 20 miles of piping under City streets. The fund is operating as an enterprise wherein the fees for water service are intended to cover all of the operating cost to make water, maintain the system as well replace the capital assets totaling over \$12 million as needed.

The City Council is contemplating a rate study to increase the user and capitalization rate for the aging system. At present, the capital rate is \$4.50/month which raises approximately \$77,000 annually. However, a minimum of \$450,000/year should be collected to address the most outstanding needs identified in the draft 5 year Capital Improvement Plan.

## 2014-15 BUDGET

The Water Fund is separated into water operations (Fund 60), water capital (Fund 61) and water debt service (62). Transfers between the Water Funds are recommended for 2014-15 to meet minimum reserve balances.

## REVIEW OF FUNDS

The Water Operations Fund (60) begins the new fiscal year with an estimated beginning balance of \$114,479 and \$541,900 of revenues is expected to be received during the year, including \$33,600 from the Sewer Fund for water. However, with expenditures budgeted at \$652,336 the reserve balance at year's end is forecast to be reduced \$110,436 to just \$4,043, except for a transfer-in of \$93,808 from the Water Debt Fund to establish the minimum 15% fund reserve (\$97,850). The Debt Fund is carrying more balance that is required.

The Water Debt Service Fund (61) will have a sufficient balance to make the loan payment of \$136,000 and have with a reserve balance at the end of the year of \$234,984. However, only \$68,000 is required to be available on July 1, 2014 to pay the first installment on the loan. Therefore, it is recommended that \$93,807 be transferred to the Water Operations Fund to bring it up to the minimum 15% reserve level of \$97,850, and the balance (\$78,176) to be transferred to Water Capital to bring it to \$193,676.

The Water Capital Fund (62) is projected to begin the fiscal year with a balance of \$78,500 and receive revenues at \$77,000. Thus, the recommended expenditures of \$35,000 for a back-up generator for the infiltration gallery will leave the fund at June 30, 2015 at approximately \$120,500. However, it is recommended that the Water Debt Fund, which is carrying a larger reserve that is necessary, transfer \$73,176 to the Capital Fund for a project year-end balance of \$193,676.

## WATER OPERATIONS

### SALARIES AND BENEFITS

The budget includes \$83,859 of salary and benefits for a major portion of the Water Superintendent and (4) Utility Workers who also staff the Wastewater and Streets operations. This object is down \$50,459 from 2013-14 due to limited funds for labor and maintenance.

### SERVICES AND SUPPLIES

The services and supplies line items total \$244,104 and contain some major expense items that are customary to a water system, i.e. (5109) Chemicals-\$23,000, (5135) Repairs-\$40,000 and (5150) Electricity-\$54,000. Also included in the (5115) Contract/professional services account is \$65,000 for a water rate analysis (\$35,000) and consulting Engineers related to issues with the infiltration gallery (\$30,000).

### CAPITAL EXPENDITURE

The Capital Expenditure budget unit includes the amount of \$35,000 to install a back-up generator for the infiltration gallery in order to supply water to the community for potable and fire suppression purposes, in the event of an extended power outage (2 days or more).

### POLICY ITEMS

1. Rate study of Water Funds by Bartle Wells Associates
2. Acquisition of back-up infiltration gallery generator-\$35,000.
3. Approve by Resolution internal transfers from the Debt Fund to the Operations and Capital Funds.

# Wastewater Fund

## STATEMENT OF FUNCTION

The City Public Works Department is responsible for the daily operation and maintenance of the wastewater system, including the main processing plant at the City corporation yard, almost 20 miles of piping under City streets and the wastewater irrigation site north of the City on Metropolitan Avenue. The fund is operating as an enterprise wherein the fees for wastewater service are intended to cover all of the operating and disposal costs, maintenance of the aging sewer lines and pumps and the replacement of the capital assets totaling over \$17.5 million as needed.

The City Council has recently approved a change in the wastewater rate structure from a fixed charge of \$76.16/month to a rate structure based 70% on a fixed rate of \$47.01/EDU and 30% on volume, factored on strength of wastewater customer class. As the result, the average residential customer who uses 5ccf of water/month should see their monthly sewer bill reduced by \$8.60 to \$67.56.

## REVIEW OF FUNDS

The Wastewater Fund is separated into the sewer operations fund (50), sewer capital fund (52), sewer assessment district fund (53) and sewer debt service fund (54).

The Sewer Operations Fund (50) begins the fiscal year with a projected beginning balance of \$339,617. The requested budget totals \$371,177 and is recommended at \$370,270. The total direct and indirect budget totals \$556,644. The budget funds the salary and benefits for the Wastewater Superintendent and a portion of cost of (4) Utility Workers who also staff the Water and Streets operations.

The Sewer Capital Fund (52) has an estimated beginning fund balance of \$193,904 and revenue for the year estimated at \$278,050. With no capital projects planned, the ending fund balance is expected to total \$568,180, including an internal transfer of \$96,226 from the Sewer Debt Fund.

The Sewer Assessment District Fund (53) has a beginning fund balance of \$7,654 and should receive an estimated \$28,785 of revenue in order to pay the debt service in 2014-15. There is an outstanding balance on the loan of \$135,000 which will be paid off in 2018-19; the last 2 fiscal years with payments of \$30,000 each.

The Sewer Debt Service Fund (54) begins the year with an estimated balance of \$570,649 and will receive \$325,900 of revenue to meet the loan payment of \$325,880. The \$6,000,000 WWTF grant required the City to hold in reserve 1 year's amount of debt service, or \$325,880. At this time the required reserve is overfunded by \$244,669. It is suggested that the Council consider holding a public hearing and adopting a resolution to transfer the overfunded amount to the underfunded Sewer Capital and Operations Funds.

#### 2014-15 BUDGET

For the first full year of operating the new wastewater plant and irrigation field, the recommended budget totals \$370,270, an increase of \$529 from 2013-14. Salaries and benefits provide for the Wastewater Superintendent and a portion of 4 Utility Workers who also maintain parks and grounds, the water system and street maintenance.

#### SALARIES AND BENEFITS

Salaries and benefits total \$145,412, \$27,543 less than last year due the operating efficiency of the new plant. Generally the public works crew spends about 15% (\$31,245) of their time on Wastewater Fund activities.

#### SERVICES AND SUPPLIES

Services and supplies total \$196,462, \$35,257 more than 2013-14, primarily due to an increase of utility cost by \$34,109. Other major cost centers are regulatory fees- \$15,000 and required lab testing--\$12,500.

#### POLICY ITEMS

Consider the transfer of \$244,669 from the overfunded Sewer Debt Fund to the underfunded Sewer Operations and Capital Funds (public hearing and Resolution).

# Capital Projects Budget

---

## STATEMENT OF FUNCTION

The Capital Projects budget contains the special projects and capital expenditures for all funds.

### 2014-15 Budget

The projects for 2014-15 total \$80,000 as compared to \$160,500 last year. The two (2) recommended projects are as follows:

#### Drainage Study Ogle/Belleview (\$45,000)

This project was included in last year's budget at \$62,000, but the grant funds were not encumbered until late in the fiscal year, so the project carries forward in a lesser amount.

The City applied for a \$100,000 CDBG planning grant for topographic work and drainage analysis of the Ogle and Belleview area. A concept plan with 70% complete plans and specifications will be the end product. However, the City Engineer estimates that there will be additional engineering required in order to get the project "shovel ready" for the 2014-15 grant application cycle; estimated at \$45,000. The City could wait for another grant cycle and submit a grant for the work, but that would put off the opportunity for actual construction for at least another year. The recommendation is to fund the engineering with General Fund monies in order to move the project a year closer to fruition.

#### Back-up Generator for Water Infiltration Gallery (\$35,000)

This item was also included in last year's budget in the amount of \$35,000, but was not purchased due to unanticipated requirements in the fund. Since the water system has only about a 2 day supply of water in its storage tanks, a generator at the infiltration gallery will provide drinking water and water for fire suppression for an extended period.

## POLICY ITEMS

1. Belleview/Ogle drainage study contribution from General Fund--\$45,000.
2. Back-up generator for water infiltration gallery--\$35,000
