The Humboldt Bay Maritime Museum and the Humboldt Bay Air-Sea Naval Museum will present a seaworthy scare for those who dare this Halloween season aboard the "Haunted 1091 Ghost Ship" Halloween weekend at the Foot of Commercial Street dock in Eureka.

Thrill seekers will be guided through four decks of the 71 year old steel navy vessel 1091 transiting through a zombie infirmary and containment area, the galley of death and the infamous radio room, where a real life radio operator committed suicide and his ghost still roams. The haunted ship experience now in its third year will be more horrifying, with new haunt scenes and over 20 deathly and spine-chilling actors whose sole purpose is to make participants believe that they might not make it back to shore.

The terror begins from 6 to 10 p.m. on October 30 and on Halloween night. This interactive experience is designed for teen and adult audiences, not intended for children younger than 12 years old. Due to door designs and stairwells of the vessel, flat shoes are suggested.

Tickets of \$10.00 per person will be sold at the dock, first come first serve. All proceeds will go towards two sea worthy causes, the maintenance of the 1091 navy vessel and the maritime museums historic fishing vessel Stephanie, now under restoration.
