

PUBLIC HELP NEEDED TO FIND MISSING AND POSSIBLY INJURED DOG

55 pound Labrador mix white female service dog, ears and tail uncropped. A reward is offered for her safe return, please call Rio Dell police at 707 764-5641 if you meet her.

On Thursday May 3rd Lady, a service dog was shot between Northwestern Avenue and the Redwood Highway north of the Eel River with a 9mm pistol; Lady fled in a north-eastern direction and may have moved many miles by now, hiding wounded, stunned & shocked, or wandered onto someone's property by now. At the time of the shooting, she was not wearing any markings and was uncollared. During the search searchers reported drops of blood; Lady may have received a wound either to her head, shoulder or front paw, one round was the discharged.

Lady is multi-lingual and will respond to, "Lady, come here", "Blanca, vien ichi", and to other tongues. She looks a lot like Pete from the Little Rascals, except for no black spot around the eye. When interacting with her feel free to use words like please, por favor or merci; Lady understands polite expressions very well.

Help/suggestions are greatly appreciated; Please contact Lady's keeper through the forum threads below by posting here if you have help, suggestions, questions or if you meet her, thanks.
