The Humboldt Bay Maritime Museum is a nonprofit organization that has been dedicated to the preservation, promotion and protection of North Coast maritime history since 1977. The Motor Vessel Madaket, built on Humboldt Bay in 1910, has been operated by the museum since 1983, and is used as a tool to further the museums mission in educating the public of our local maritime heritage and culture. The Madaket is the oldest passenger vessel in continuous service in the United States and has the smallest licensed bar in the state aboard.
