Subject: CCW application now online

The Humboldt County Sheriff's Office is now offering a new way to apply for your concealed carry weapons (CCW) permit.

Interested applicants can now submit their CCW application online (<https://humboldtca.permitium.com/ccw/start>) and pay the required deposit with a credit card. The fully automated system allows applicants to schedule their required appointment with a CCW representative online during the application process. Applicants can also sign up for notification updates on their application status via the communication method they prefer.

"The transition to an online application will make CCW permitting more efficient, giving the public a more convenient option, while providing better and faster service," HCSO Deputy Director Norma Lorenzo said.

The online application portal is available for both first time and renewal applicants. Paper applications are still available for download online or at the Sheriff's Office Main Station.

Visit the Sheriff's Office website for CCW permit requirements and pricing:
